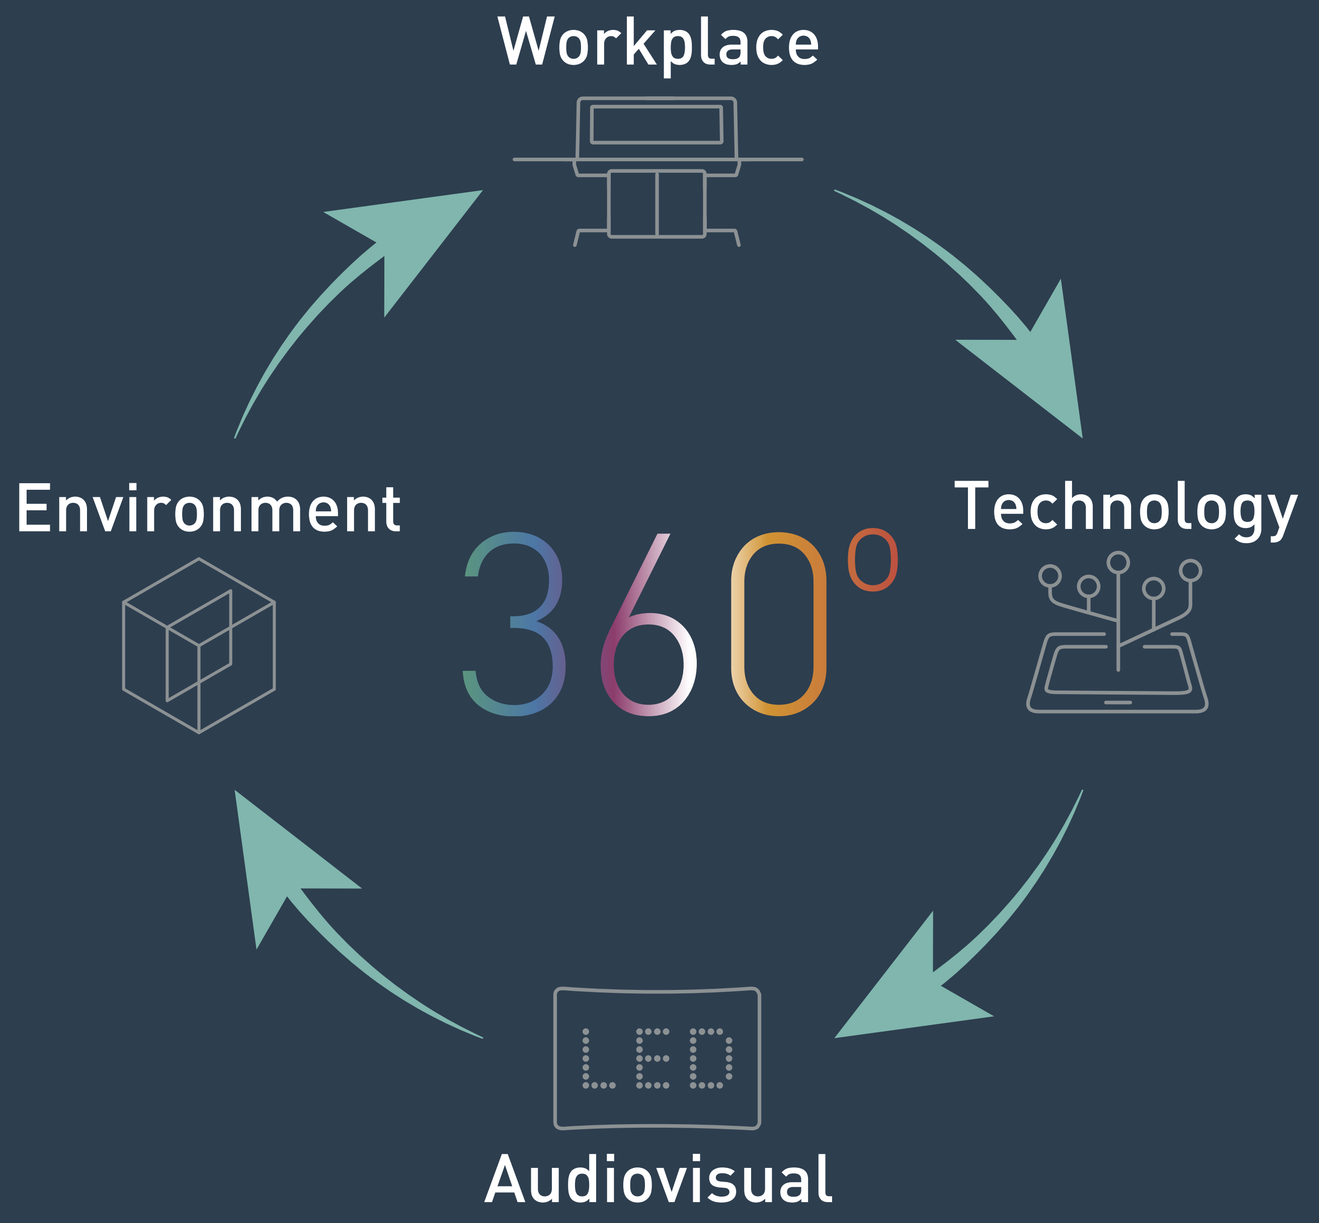
15 YEARS PERFORMING CONTROL ROOMS

Global solutions from start to finish



Roomdimensions offers 360° technological solutions for control centers, covering all stages of each project from design to implementation:

Design and manufacturing of technical furniture and smart consoles, integration of technology and electronics, supply of video walls, room design and automation of tasks associated with the security, well-being and comfort of the environment.

The main objective is to facilitate the integration of the different elements as a single supplier providing high value services in critical areas ensuring an efficient, reliable and adaptable operating environment to the needs of each client.
