TECHNICAL SOLUTIONS FOR CONTROL ROOM

“Our aim is the detail”

EXPERTS IN INFRASTRUCTURE DEVELOPMENT AND IN PROVIDING
HIGH ADDED VALUE SOLUTIONS FOR 24X7 OPERATIONS ENVIRONMENTS

Roomdimensions Iberica, RDI, provides technical solutions for control rooms, focused on the manufacturing and exporting of high added-value technical furniture and ergonomic solutions for non-stop operation environments.

We have a wide range of products that enhance the management and the organization of the 24x7 operations environments and their annexed spaces, using at any time the suitable product for the user's needs.

Operations and supervisor consoles, meeting tables, archive furniture, printing cabinets, auxiliary technical furniture, specific 24x7 chairs & ergonomic supports.

MEETING TABLE WAVE SHAPE

This outstanding meeting table counts with all the Type A features but has the advantage of a strong aesthetical look. The surface of the meeting table reaches the floor by a smooth curved metallic element with a round edge.

Every user has a connectivity unit integrated into the work surface, containing customizable sockets according to client needs. The central zone is formed by a decorative steel area with led lighting all along the perimeter that gives the meeting table a hi-tech look that will amaze its users.

MEETING TABLE TYPE A

Closed technical Solution designed to organize meeting and crisis management environments where high capacity and added value solutions are required. "Meeting Table Type A" allows a perfect AV equipment and computer location inside of the structure and a great multimedia screen integration for every user.

WIRING MANAGEMENT

All structured wiring can be distributed along the table without any restriction. In the inner zone different levels can be created to be able to organize horizontally all the infrastructure.

STRUCTURE COVERS

External and internal covers are removable in order to guarantee

access to the structure. The external cover is made of compact phenolic resin, and the internal cover is made of perforated sheet.

CONNECTIVITY UNIT

Every user has a connectivity unit integrated into the work surface, containing customizable sockets according to client needs.

MEETING TABLE TYPE B

Open technical solution for meeting and crisis management environments where it is required the integration of computer equipment and to locate AV accessories in specific points of the table. The solution integrates a range of closed compartments distributed along the table, which are connected to the main structure of the console. The user has access to the connectivity zone, from the upper area, through integrated hinged covers.

REMOVABLE
COVER TO
MANAGE THE
WIRING

DESKTOP UNIT:
POWER, DATA
& USB

MEETING TABLE TYPE C

Open technical solution for operating environments where there is no need of computer equipments. It is the ideal complement to create adjacent meeting areas of the control centers, where a simple plug-in is required to create common work areas with the necessary connectivity elements well integrated and effortless for the user.

CENTRAL COVER

The table has a central cover made of the same materials as the central part of the

table surface, phenolic resin with a metal cover. It is fully removable for managing the wiring. Longitudinally open space to facilitate the entry and exit of wiring cables to the surface of the table.

MANAGEMENT SUPPORT

Prepared with a desktop unit power, data and USB sockets for the operators. 4x energy and 4x data in every column.

REMOVABLE COVER TO MANAGE THE WIRING

DESKTOP UNIT: POWER, DATA & USB

MEETING TABLE TYPE C+

It is the ideal complement to create adjacent meeting areas of the control centers, where a simple plug-in is required to create common work areas with the necessary connectivity elements well integrated and effortless for the user. Unlike the Type C, it also has space destined to house computer equipment.

CENTRAL COVER

The table has a central cover made of the same materials as the central part of the table surface, phenolic resin with a metal

cover. It is fully removable for managing the wiring. Longitudinally open space to facilitate the entry and exit of wiring cables to the surface of the table.

MANAGEMENT SUPPORT

Prepared with a desktop unit power, data and USB sockets for the operators. 4x energy and 4x data in every column.

EQUIPMENT SPACE IN THE BASE

Central space between structural feet destined to house computer equipment.
